Slot Games

Bringing the top-rated slot games to you.

When it comes to online gaming, great slot games are key components of successful online casino operations. That's why Amaya invests substantial resources to develop exciting, high-quality online games that are designed to generate revenue. Our focus is on quality, rather than just quantity.

Amaya slot games come from diverse sources. Our portfolio is comprised of our own proprietary slot games and the best-in-class from our 3rd party partners. We work with the best in the industry to develop games that people want to play.

Through our Rapid Game Deployment technology we consistently release exciting new content on a monthly basis.

Why choose Amaya slot games?

The look and feel of Amaya slots is second to none. We incorporate a range of image styles and media – including video clips, photo realistic graphics, 3D images, and more. Our slot game portfolio ranges from 1 line to 100 line and even 1024-ways slots with widely diverse bonus features to satisfy all types of players.

We recognize the widening demographic of slots players. The team at Amaya considers the player - not just the game - when we undertake any development. In fact, we perform focus groups with players to ensure we deliver the features they want, resulting in player engagement and loyalty.
